

# ADVANCED PVC PORCH COLLECTION

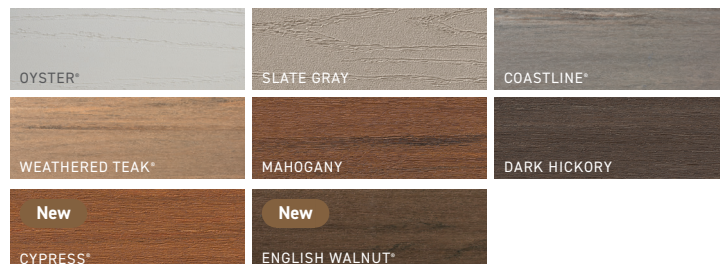

Hardwoods & Stained Wood

## ADVANCED PVC BEAUTY & DURABILITY — FOR A BETTER FRONT PORCH

Made of the same proprietary PVC material as our decking, you can enjoy the same aesthetic and performance benefits. Plus, with an innovative tongue-and-groove installation, our Porch Collection allows for smaller gaps between boards, which delivers a traditional porch flooring look your clients will love.

- Most advanced polymer material in the cap and core for superior performance
- Highly resistant to moisture damage like mold and mildew & won't rot, crack, splinter, or warp
- Protected by an industry-leading Lifetime Limited Product Warranty
- Superior resistance to fading, staining, and weathering — backed by a 50-Year Fade & Stain Warranty

\*Although TimberTech Advanced PVC Decking and Porch are cooler to the touch than many other deck and porch board products, all decking and porch products will get hot in the sun. Additionally, the darker the color, the hotter it will feel. For hotter climates, consider choosing a lighter color.

- Extremely low maintenance — no sanding, sealing, or staining, ever
- Friendlier to bare feet: Stays up to 30° degrees cooler\* & offers 40% better slip resistance than competitive composites
- Better for fire zones thanks to WUI-compliance
- Made in the USA from approximately 60% recycled material, including post-construction scrap like vinyl siding and trim, our Advanced PVC decking is the greenest PVC option on the market
- Fully recyclable at the end of its useful life through our FULL-CIRCLE Recycling® Program
