based on proper installation

# 10 THINGS

about

## PROTECTED TRIM BOARDS

### PROTECTED TO THE CORE; FULL PENETRATION

Because unlike the other guys, we're assuming you'll actually want to cut the material at some point.

### PROTECTED AGAINST ROT, INSECTS & MOLD

Does not protect against your mother-in-law, hangovers, airport security, etc.

### DURABLE FOR EXTERIOR & SAFE FOR INTERIOR

Gold Indoor Air Quality Rating, low VOC's & California Hippie Approved.

### MINIMIZES NATURAL TENDENCY TO DISTORT

Unlike the explanation your 16 year old told you about how the family car ended up in the pond out on Route 1.

### WEATHER RESISTANT SYSTEM

Water is for drinking, not trim boards.

### PROTECTION NOT DIMINISHED

By shaping, planing, sanding, fastening or molding (actual use does not void the warranty).

### NO KNOTS; YOUR BOARDS ARE ALWAYS CLEAR

Imagine that, you can actually use every foot you pay for.

### THE CUT SURFACES ONLY NEED PRIMING

No need to also apply special protection (we took care of that for you).

# 30 YEAR

### BACKED BY A 30 YEAR LIMITED\* WARRANTY

\*The "limitation" is you have to install it correctly (for an example, see note on priming cuts).

### BUILD AMERICA: MANUFACTURED IN THE U.S.A.

Because everything else you bought was made in China.

### TRADITIONAL S4SSE TRIM BOARDS

smooth surface four sides
